

NOVICE ENTRY RECORD

MCofS Participation Statement

“The Mountaineering Council of Scotland recognises that climbing and mountaineering are activities with a danger of personal injury or death. Participants in these activities should be aware of and accept these risks and be responsible for their own actions and involvement.”

Member Declaration (customers registered to climb unsupervised)

		Answer “Yes” or “No”
1	I am registered as an ‘Unsupervised Climber’ of Transition Extreme Climbing Centre.	
2	I agree to take full responsibility for the safety and well being of the novice(s) detailed including their behaviour and conduct within the climbing centre.	
3	I am competent in the skills involved to take part in safe climbing activities.	
4	I agree to provide constant supervision and understand that I cannot provide supervision to a belayer whilst I am climbing. If teaching to belay I agree to do so in close proximity to the ground to prevent the potential for a fall from height.	
5	This also applies to children and their requirement for control and direct supervision in the climbing centre as it is potentially a dangerous environment.	
6	I understand that teaching and instructing of belaying and other climbing activities should only be done by persons competent/qualified to do so.	
7	I understand my guest(s) are novices and have explained the risks and risks involved with different styles of climbing and they have expressed an understanding of this.	
8	I have read the MCofS ‘Participation Statement’ above and understand and accept that climbing is a dangerous activity. I accept that neither the operating company “Transition Extreme” nor its employees shall be liable for any loss or injury arising from my participation in any activities. Nothing within the terms of consent shall affect my statutory rights.	

If the novices being signed in are under the age of 16 then the member completing this declaration accepts that they have gained parental consent for the novices and explained the dangers and risks involved with indoor climbing activities to them and that they understand.

CONDITIONS OF USE OF TRANSITION EXTREME CLIMBING CENTRE

Risks - "The Mountaineering Council of Scotland recognises that climbing and mountaineering are activities with a danger of personal injury or death. Participants in these activities should be aware of and accept these risks and be responsible for their own actions and involvement."

Although the climbing centre is an artificial environment the risks involved are **no less serious than when climbing outside** on a crag or mountain. There is an additional risk that bolt-on holds can spin or break.

The soft flooring under the bouldering walls is designed to provide a more comfortable landing for climbers falling or jumping from the bouldering wall. **THE SOFT FLOORING DOES NOT MAKE THE CLIMBING ANY SAFER.** Broken and sprained limbs are common on this type of climbing wall despite the soft landing. **Uncontrolled falls are likely to result in injuries to yourself or others.**

Climbing **beyond your capabilities** is likely to result in a **fall**. Any fall may result in an **injury** despite the safety systems in place to prevent it. You must make your **own assessment of the risks** whenever you climb.

Our Duty of Care - The rules of the climbing centre set out below are not intended to limit your enjoyment of the facilities. They are part of the duty of care that we, as operators, owe to you, the customer, by law. As such they are not negotiable and if you are not prepared to abide by them then the staff must politely ask you to leave.

Your Duty of Care - You also have a duty of care to act responsibly towards the other users of the centre. Statements of 'Good Practice' are posted around the centre adjacent to the relevant facilities. These describe the accepted methods of use and how customers would normally be expected to behave towards each other.

Unsupervised Climbing - Before you climb without supervision the centre requires you to be competent in the use of a safety harness, a suitable knot to attach a rope to the harness and a belay device to secure a falling climber using a rope. You are required to register to say that you know how to use the equipment, that you are prepared to abide by the Rules below and that you understand the risks involved in your participation.

Unsupervised climbing is just that! **Staff will provide whatever help and advice they can, but instruction in the use of equipment or climbing techniques will only be provided where it has been booked and paid for in advance. If you are not confident in the use of any climbing equipment or technique then do not attempt to use it without the supervision of someone who is competent to do so.**

Supervised Climbing - An adult who has registered at the centre to climb unsupervised may supervise up to two novice climbers as long as they are prepared to **take full responsibility for the safety of those people**. Groups of three or more novices must only be supervised by an instructor holding the relevant Mountain Leader Training Board qualification.

Novices and children are to be supervised closely at ALL times.

Loss of Personal Property - Transition Extreme accepts no responsibility for any loss of or damage to customer's personal property. Lockers are provided for customer's convenience but they are not secure. No valuables should be left unattended.

No Smoking - There is a policy of no smoking anywhere inside the building.

RULES

General Safety

- Report to reception on each visit before you climb.
- You must exercise care, common sense and self preservation at all times.
- Report any problems with the walls, holds (including breaks & spinning), equipment or other climber's behaviour to a member of staff immediately.
- Be aware of the other climbers around you and how your actions will affect them.
- Do not distract people while they are climbing or belaying.
- Stand well back from the climbing walls unless you are belaying or spotting a climber. Never stand directly under someone who is climbing.
- Centre staff are there to help: follow their advice.
- Climbing shoes **MUST** be worn at all times when climbing.

Tall Walls

WHEN BELAYING

- Always use a belay device (bug, ATC etc. Figure of Eights are not allowed) attached to your safety harness with a locking karabiner. 'Traditional' or 'body' belaying is not acceptable.
- Always pay attention to what the climber is doing.
- Always stand as close to the climbing wall as is practical.
- Sitting or lying down are not acceptable.

WHEN CLIMBING

- The tall walls are designed to be climbed using a rope for protection. Solo climbing is not acceptable on these walls. Always use a rope to protect yourself on these climbs.

- Always use a safety harness to attach yourself to the rope.

- Always tie the rope directly into the harness using a suitable climbing knot. Clipping in with a karabiner is not acceptable.

Bottom Roping

- Many of the climbs in the centre have top ropes already in place. Do not take them down to use on other routes.

Leading

- When using the lead walls you must supply your own appropriately rated dynamic rope. Do not use the centre's insitu bottom ropes for lead climbing.
- Running belay attachments (runners) are already provided at intervals on the lead walls so you do not need your own 'quick draws'. You must clip **all** the runners on the route you are climbing.

Bouldering

- Always climb within your capabilities and descend by down climbing, jumping or at least a controlled fall.
- Never climb directly above or below another climber.

Trad Placement Lines

- The two Trad gear placement lines (Lines 35 and 36) are the only lines where the bottom ropes can be pulled down and personal quickdraws used.
- If you wish to do so you must inform a member of staff before hand in the interests of Health and Safety.
- Helmets must be worn at all times when using Trad gear or your own quickdraws on lines 35 & 36.
- **Climbers are recommended to seek advice/instruction from qualified staff before attempting a new technique (leading etc.).**
